Summary

About Me:

I'm Michele Boldoni, Character Rigger: I was born in 1982. I live in Rome, now.

I have been through several jobs, and experiences, that have led me to find a job that has become my biggest passion. I make 3D Animation Movies.

Even though I've always wanted to be a basketball champion.

I am a Rigger. I create the body structures that allow Animators to bring characters to life.

I use deformer and joint chains to create real-life deformations of the skin, hairs, cloths, as well as facial expressions of the puppets.

I work with MEL/Python language to develop useful animation and rigging scripts.

I'm also familiar with Modeling, Grooming, FX, Animt Tech department and I work with them to realize the assets.

I handle Mocap and I teach Rigging.

But first of all, above all, I'm a Rigger and there is nothing I like to do better.

Professional Experience:

Character Rigger, Lighting and Vfx artist, Finishing artist, Web and Media Designer, Marketing Management

Goals:

Rigging first of all. I work in team of rigging, I create the setup of the characters, animals, monsters and props, both low that high. I deal mainly with the facial deformations. I create scripts that improve the work of the animators. I can script in python or mel and usually I create procedures to speed up the setup of the assets. I've also worked in the team of lighting, vfx and finishing. I'm a Motion Capture artist also.

Specialties:

Character Rigger, Facial Deformation, Biped, Quadruped, Monsters setup and Motion Capture Animation.

Teacher Rigging

Rainbow Academy

Sep 2011 - Present (10 years 3 months +)

I am a teacher at the Rainbow Academy and teach the course of rigging.

The program includes the teaching of the basic tools for set up a character like joints, connections, constraints, nodes, skeleton, face setup, spine setup, arms setup, setup legs and their assembly, character skinning, blend shapes deformation, clothes and hair setup, squash and stretch system.

It is interesting to explain things to people. The class consists of about twenty students that follow the entire production process, from pre-production to post-production. There are three annual courses. My students start the course without knowing the meaning of the word rig and release their character ready to be animated. This is cool!

CG Supervision, Character Rigger, Screenplayer and Video Editor for "SUSHIDO" Short Production

working group self managed

Sep 2016 - Jun 2017 (10 months)

A project made by a team of friends who work as professionals in the 3D industry but in reality have fun creating animated shorts in order to make sense of their own creativity.

I've created the story, I've rigged the character and all his props and I've made the supervision of all the team that had working on this short.

SUSHIDO is visible at the Athens Digital Arts Festival which takes place in Athens on May 27, 2018.

It has been visible also to the 6th FIFES Festival in Kino Tuskanac, Zagreb, on May 11, 2018.

Character Rigger for GazzaToons Series

Playstos Entertainment

Sep 2011 - Apr 2012 (8 months)

I worked with the firm "Playstos Entertainment" in Milan to the achievement of the setup of different characters used in the cartoon series "Gazzatoons" WebTV broadcast online from the site of the Gazzetta dello Sport. The protagonists of the serial are caricatures with the giant head of sports celebrities.
